

Josh Newland

26 year old video games programmer with 2 shipped AAA titles & 3 years experience developing ActionScript UI.

EXPERIENCE

Frontier Developments, Cambridge, UK — UI Developer

SEPTEMBER 2015 - SEPTEMBER 2018

Developed and maintained data driven UI elements with Animate CC in Actionscript and assisted gameplay programmers with integration into the game engine writing test/example data in Lua.

Maintenance & improvement of in house UI codebase & development & debugging tools in Actionscript, Bash & JSFL.

Jumped between Planet Coaster & Jurassic World Evolution.

Maintained confluence documentation on my work, wrote some tutorials and helped train a newer employee.

RioSat SL, Malaga, Spain — Network installer & translator

FEBRUARY 2014 - FEBRUARY 2015

Spanish to English and vice-versa translations, customer service, router configuration & client installation.

EDUCATION

Anglia Ruskin, Cambridge — 1st BSC Video Game Technology

SEPTEMBER 2012 - SEPTEMBER 2015

Co-founded the video game development society, participated in various Karate competitions & won Brains Eden game jam 2014.

PROJECTS

Jurassic World Evolution — UI Developer at Frontier Developments

Involved in the mid to later stages of development, produced and maintained UI elements such as the HUD, Tooltips & mission related UI elements.

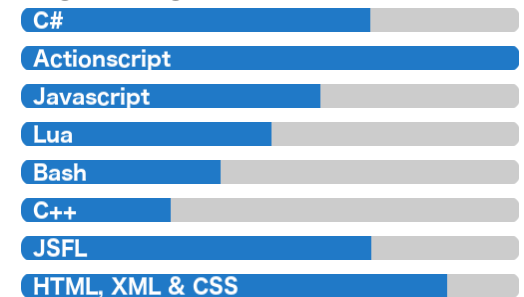

Planet Coaster — UI Developer at Frontier Developments

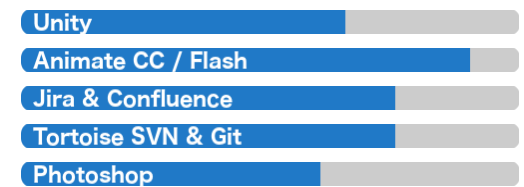

Involved early production to post release, the only UI developer on this project in later stages. Developed and maintained the HUD, info panels, parts of the front end menu, park management & scenario editor UI elements.
